# Blended Intensive Programme

## Independent Learning Strategies in a Digital Environment

### Universities involved:

- Sofia University St. Kliment Ohridski, Sofia, Bulgaria - Coordinator
- ISAL, Funchal, Madeira - Partner
- VUB, Bjelovar, Croatia - Partner

### Objectives of the course:

#### General Objective of the Course:

This course intends to empower students to become more independent learners, by resorting to digital tools and resources that enable them to learn by themselves in a digital environment.

#### Specific Objectives of the Course:

- To foster independent learning in a digital environment;
- To help students become more autonomous learners;
- To provide the students with practical know-how on how to use digital tools for independent learning;
- To equip students with strategies on how to search and find the most suitable digital tools to be used in their field of studies/during their studies and later on in their career as professionals;
- To get students acquainted with digital project management tools;
- To improve students' intercultural and interpersonal communication skills and their presentation skills;
- To excel students English language skills through studying in English and working in international teams where English is the working language.

#### Expected Learning Outcomes:

Upon the completion of the course in Independent Learning Strategies in a Digital Environment, students are expected to:

- become more autonomous learners;
- be familiar with digital tools for independent learning;
- implement independent digital learning strategies;
- overcome language barriers by resorting to technology;
- create content in a digital environment;
- resort to project development tools;
- improve communication and presentation skills;
- improve skills that enable them to work in intercultural teams.
